

REMARKS

Claims 1-39 remain in the application and have not been further amended.

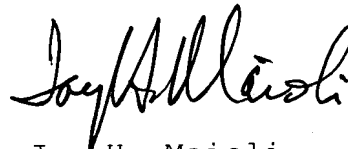

The Office Action is in the nature of a requirement for an election of Species, and applicant hereby elects Species I including claims 2, 14, and 26.

Claim 1 is generic and, thus, claims 1, 8, 9, 12, 13, 20, 21, 24, 25, 32, 33, and 36 will also be examined along with the claims of Species I identified above.

Nevertheless, it is respectfully submitted that the claims of so-called Species VI, VII, and VIII should also be examined, because those so-called Species do not further limit the step of generating a single information change, which is the subject of Species I-IV.

An early and favorable examination on the merits is earnestly solicited.

Respectfully submitted,  
COOPER & DUNHAM LLP.
